

Checklist of Damselflies Potentially Found in the Region of QUBS

List of possible damselfly species found in the QUBS vicinity, based on Corbet 1967 (proceedings of North-Central branch of Entomol. Soc. Amer.): letter following name indicates that someone has identified specimens from the region, (m) = Mark Forbes, (n) = Nancy Gerrish, (b) = Bruce Smith, (d) = Derek Budman, (j) Jason Pither

Calopteryx maculatum(m)(d)(b)(j)
Calopteryx aequabile(j)
Lestes eurinus(m)(d)(b)
Lestes vigilax (b)(n)(d)
Lestes inequalis(d)
Lestes congener(m)(d)(b)
Lestes unguiculatus(d)
Lestes dryas(d)(m)
Lestes disjunctus disjunctus(m)(d)
Lestes disjunctus australis ?
Lestes forcipatus(m)
Lestes rectangularis(d)
Argia moesta(m)(d)
Argia violacea(m)(d)(b)
Nehalennia irene(m)(b)(n)(d)
Nehalennia gracilis?
Coenagrion resolutum(m)(b)(d)
Enallagma carunculatum(n)(b)
Enallagma civile?
Enallagma boreale(m)(b)(d)(n)
Enallagma cyathigerum(m)
Enallagma vernale (m)(b)(d)
Enallagma hageni(m)(d)
Enallagma ebrium(m)(b)(n)(d)
Enallagma geminatum (b)(n)(d)
Enallagma exsulans(d)(b)
Enallagma antennatum ?
Enallagma aspersum(m)
Enallagma vesperum(m)(b)(n)(d)
Enallagma signatum(m)(b)(n)(d)
Ischnura posita ?
Ischnura verticalis (m)(b)(d)(n)
