

Application for Biology Undergraduate Summer Awards to Conduct Field Research at the Queen's University Research Station

This common application pertains to four summer research awards that are listed below. Each has specific criteria and conditions that can be found at: <https://qubs.ca/awards> or <https://biology.queensu.ca/academics/undergraduate/awards-opportunities/>. You will be considered for any of the four awards that are deemed appropriate based on the description of your activities. These awards are typically to be used to help: 1. Cover room & board at QUBS, 2. Provide some stipend support for the candidate, and 3. Cover field research expenses.

Wes and Dorletta Curran Memorial Award (for research in aquatic biology) - *awarded on the basis of both financial need and academic excellence*. By applying for this award I authorize QUBS to contact the Office of the University Registrar (Student Awards) to confirm my eligibility for the required financial need component of this award.

J. Allen Keast Lake Opinicon Undergraduate Research Fellowship (for independent research at QUBS)

Alexander and Cora Munn Summer Research Award (for research in conservation biology or environmental preservation)

Kingston Field Naturalists' Award (for research in conservation biology or natural history).

NOTE: The **Karen Huntley Memorial Award**, while not part of the QUBS Awards specifically, is awarded to a student in either Honours Biology or Environmental Science SSP BIOL who will be doing a field course or field research in conservation, environmental biology or sustainable forestry. This award supports expenses incurred at the field site. Selection is made by the Faculty of Arts and Science Awards Committee based upon nomination from the Department of Biology. See: <https://biology.queensu.ca/academics/undergraduate/awards-opportunities/>

Contact Details	
Name	
Student Number	
Email	
Current phone number	

Eligibility	Please Indicate	
Are you currently a full-time Arts & Science undergraduate student at Queen's University?	YES	NO
Are you in the Biology program?	YES	NO
What year are you in at the time of application?		
Will you be working at QUBS full-time during the summer?	YES	NO
Please provide anticipated dates of residence at QUBS.		

Other Information	Please Indicate	
Have you received support from an NSERC Undergraduate Student Research Award (USRA)?	YES	NO
Have you received support from a Summer Work Experience Program (SWEP) internship?	YES	NO
Will you have stipend support from another source (e.g. an award that is neither SWEP nor NSERC)?	YES	NO
Are you doing an independent project or research for your undergraduate thesis?	YES	NO
Will you be working as an assistant to a graduate student researcher?	YES	NO

Name of proposed supervisor(s). By listing their names you confirm that you have spoken to each person listed and they have agreed to be your supervisor for the duration of the award

Please submit your application to:

Julie French, Rm 3109d Biosciences Bldg. Email: frenchj@queensu.ca

APPLICATIONS NOW ACCEPTED UNTIL MIDNIGHT APRIL 12TH

Results will be announced LATE April

Inquiries: Dr. Stephen C. Lougheed, Director, Queen's University Biological Station

Email: steve.lougheed@queensu.ca

Title of Project

Briefly describe your career goals and why you would like an opportunity to conduct field research at QUBS.

Describe the leadership qualities that you possess and achievements that showcase them. In particular discuss those relevant to conservation, ecology, environmental science, field research, or science outreach.

In the box below outline of your proposed activities/research at QUBS. Please ensure that your proposal aligns with the mandated activities of at least one of the QUBS awards.
