

## Queen's University Biological Station (QUBS) RESEARCH APPLICATION

**Instructions:** All researchers, regardless of whether they are simply using QUBS lands for research or are staying on-site, must fill out the research project title and description, and indicate where the research will be undertaken if possible. Included in this form are fillable fields for your laboratory/ bench requirements, needs for watercraft, or access to all-terrain vehicles or other equipment. All research on vertebrates must comply with the **Canadian Council on Animal Care** and PIs must have Animal Care approval from their home institutions plus all other pertinent permits. New applicants please consult with QUBS staff. **Requests for accommodation require an 'Application for Accommodations':** <https://qubs.ca/booking/applications>.

### 1. Proposed Research

Project title:

Brief description of research to be undertaken (including organism(s) if relevant) and student(s) associated with each project:

Proposed location of field research (if known), and expectations for exclusive use of particular site of study organisms:

Mirroring efforts by many journals and funding agencies, we have created a repository to house data gathered at the QUBS: <https://dataverse.scholarsportal.info/dataverse/QUBS>. We hope that you will archive your data with us, or provide us with the digital object identifier (doi) of data archived in other repositories like Dryad, so that we may foster collaborations between QUBS researchers and those from other institutions, encourage new research directions, and raise the profile of our facility. Researchers retain all rights to their data.

I agree to deposit data with QUBS or provide a doi when available:    **YES**            **NO**

## 2. Environmental Impacts

Briefly list environmental impacts that may arise from your study.

## 3. Lab Space Needs

Outline your lab space requirements, and needs for special facilities (e.g. aquarium space, wet lab). If known indicate your lab preference by name. If you have no lab needs please simply indicate "not applicable:"

## 4. Boats

We have canoes, small aluminum motorboats, and pontoon boats. The latter two can only be operated by those who hold an appropriate license. All users must wear life jackets and adhere to all boating safety regulations.

Watercraft Type	Dates Required

## 5. Other Equipment or Support Needs

Should you require other equipment (e.g. ATV) that we may be able to provide or additional support from our staff, please indicate this here. Note that use of equipment requires proof of all relevant training

## 6. Guarantee

I agree to ensure that all bills charged against persons under my supervision will be paid. I hereby acknowledge that all requisite permits are in place for my research, and that I, and personnel under my supervision, will adhere to all Queen's University Biological Station rules.
